

Wavelength Distribution
UK Suggested Retail Price List - September 2022 (v1.1)

Welcome to our updated Retail Price List.

SUMMARY:

Our latest Price List will be valid until January 2023.

All price changes/product additions since our last edition are highlighted in RED

We continue to be upbeat despite the inflationary issues that are affecting everyone. We will continue to invest in products and stock in order to maintain and supply products to our customers as quickly as we can.

Product Notes:

NEW PRODUCT: Supra Sword Interconnect (Rhodium Edition)
The well reviewed Sword Interconnect cable is now available fitted with Rhodium plated locking phono plugs.

Supra USB Excalibur cables
NEW Retail Prices revised as from 1st SEPTEMBER 2022

Supra HDMI AOC Offer
We have a limited number of HDMI AOC cables that support HDMI v2.0 (NOT v2.1) and are suitable for carrying 4K video. The available lengths are 6m, 10m and 12m.

NEW PRODUCTS: HiFi Tuning Mains Fuses
NEW C7 “Figure 8” connectors now available.
NEW 13 Amp UK Mains Plugs now available.
NEW Classic and NEW DIAMOND Fuse Holders now available.

Supra DC Blocker
Still in pre-production

Special Order Products
We keep many “in demand” products in stock – but certain items are only available on a Special Order basis – this will be advised at the time when you order.

UK Suggested Retail Price List - September 2022 (v1.1)

JenTech Cables and Accessories

JenTech HIGH SPEED 3D HDMI+Ethernet cable (3D ready, HD4K, 10-48bit color, 10.2Gbps)

The "Economy" Line of High Speed 3D HDMI+Ethernet cables from JenTech Technology - the manufacturers of Supra Cables. JenTech HDMI is a thin and highly flexible cable, produced in a neutral white outer sheathing, ideal for wall fixing. The cable is designed for the latest HDMI standard, HDMI High Speed with Ethernet. HDMI Ethernet Channel enables a fast and bidirectional communication, up to 100Mb/sec. Perfect for all IP-based applications. The Audio Return Channel also permits audio to be returned from the TV's built-in digital tuner - which can send the digital audio to a surround sound system, eliminating the need for a separate audio cable.

Supplied as HDMI <> HDMI connector

Length	1m	1.5m	2m	3m	4m	5m		Only these lengths are available.
SRP	35.00	37.50	40.00	45.00	50.00	55.00	each	

Supplied as HDMI <> mini C HDMI connector

Length	1m		2m	3m				Only these lengths are available.
SRP	35.00		40.00	45.00			each	

JenTech Sky 11 Economy Speaker cables

Multi-stranded copper OFC. Highly suitable for use as a "freebie" cable or for supplying with budget systems. We provide guide retail prices, as most retailers will usually use these as high quality "get you going" cables for inclusion in complete system packages.

Product	Sky 11 1.6mm Black, White or Transparent	Sky 11 2.5mm Black, White or Transparent	Sky 11 4.0mm Black, White or Transparent
SRP (guide only)	2.50	4.00	6.00
Notes	Special order only	Special order only	Special order only

NEW JenTech Skyflex Flame Resistant Halogen Free Speaker cables

Multi-stranded copper OFC. Highly flexible and suitable for various lower end systems or where building regs need to be observed. Twin conductor or bi-wire conductor versions available. Supplied in Black outer insulation only.

Product	Skyflex 2x1.6	Skyflex 4x1.6	Skyflex 2x2.5	Skyflex 4x2.5	Skyflex 2x4	Skyflex 4x4	Skyflex 2x6 / 4x6

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

Digital Video cables – HDMI, DisplayPort and DVI

Supra HDMI AOC cable

The Active Optical Cable can carry HDMI v2.1 8K signals up to 100 metres !! Plug & Play – no device drivers ! Spec: *Proprietary gold-plated shielded metal connector for low noise interference, *Fibre optic technology in selected conductors for noise immunity. *Supports resolution Ultra HD 4K 3840x2160 @ 60Hz up to 100 metres. *Dolby Atmos, True HD, DTS-HD Master Audio, up to 32 audio channels. *Plug & Play configuration – no drivers or separate power supplies required. *Thin hi-flex cable, only 4.5 mm in diameter, easy to install. *A staggering 20 Gbps bandwidth provides for 8K Ultra HD in full speed and colour depth. *4:4:4 colour. *HDR support. *ARC & CEC. *HDCP 2.2

Length	1m	1.5m	2m	4m	5m	6m	8m	10m	12m
SRP	280.00	285.00	290.00	300.00	305.00	320.00	340.00	350.00	360.00

Length	15m	20m	25m	30m	40m	50m	75m	100m
SRP	375.00	395.00	415.00	435.00	475.00	535.00	655.00	775.00

Supra UHD8 Digital Video cable for HDMI or DisplayPort

UHD8 and HD5 are available with HDMI or DisplayPort connectors and capable of carrying digital video signals. For HDMI: Adds a data channel to the HDMI cable to enable high-speed bi-directional communication. Network connectivity. - send and receive data via 100 Mb/sec Ethernet, making them instantly ready for any IP-based application. **Features: v2.0 approved** (see below) Signal Bandwidth: 340 MHz. TMDS Bandwidth: 10.2 Gbit/s. Color Depth: 48 bit/px. **4K x 2K Resolution support: Enables video resolutions far beyond 1080p.** Deep Color, x.v.Color. Auto Lip Sync. Dolby TrueHD, DT-HD Master Audio. 3D over HDMI. Audio Return Channel. Ethernet Channel. **Note: UHD8 cables support 8K resolution in lengths 0.5m>5m. HD5 cables support 4k in lengths 5m up to 8m 4096 x 2160 @ 60Hz, and in 10m to 15m lengths 4096 x 2160 @ 24/30Hz.**

The Met-S is factory-fitted with 2x straight “removable” housings, making it suitable for installation where the cable needs to be fed through a conduit, as the outer shell can be unscrewed. The previously supplied “angled” housing plus draw-through braid are now optional extras. **Please note: Met-S cables up to 5m length use the NEW UHD8 cable (with smaller outside diameter). HD5 cables over 5m in length use the standard HD5 cable (9.5mm outside diameter).**

Supra UHD8 – fitted with DisplayPort connectors and supports 8k resolution (8k up to 3m, 4k for 4m and 5m)

Length	0.5m	1m	1.5m	2m	3m	4m	5m
SRP		66.00	71.50	77.00	88.00	99.00	110.00

Supra UHD8 Met-S– supports HDMI v2.1 and 8k resolution for both HDMI

Length	0.5m	1m	1.5m	2m	3m	4m	5m
SRP	60.00	65.00	70.00	75.00	80.00	95.00	110.00

Supra HD5 Met-S cables – supports HDMI v2.0 and up to 4k resolution in lengths up to 15m (we can quote for 20m, 25m and 30m lengths)

Length	6m	8m	10m	12m	15m
SRP	125.00	155.00	185.00	215.00	245.00

Supra HD5 Met-S/B HIGH SPEED HDMI+Ethernet cable (whilst stocks last)

The Met-S/B is factory-fitted with 2x straight removable housings and supplied with extra 1x “bent” housing plus draw-through braid.

Length	1m	2m	3m	4m	5m	6m	8m	10m	12m	15m
SRP	70.00	80.00	90.00	100.00	110.00	120.00	140.00		180.00	210.00

Supra HD5 STANDARD HIGH SPEED 3D HDMI+Ethernet cable (whilst stocks last)

The HD5 cable is available using standard non-detachable HDMI connectors, whilst still complying with the High Speed spec.

Length	0.5m	1m	1.5m	2m	3m	4m	5m	6m	8m	10m	12m
SRP	45.00				70.00	80.00	90.00	100.00	120.00	140.00	160.00

The above items are available “whilst stocks last” as they will be phased out, and replaced with the Met-S versions

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

Digital Audio cables

USB Cables

What HiFi “USB Cable Of The Year” (2012) and What Hi-Fi “5” Winner (Nov 2012)

Featuring: Flexible cable with dual screens for best RF pick-up protection. One twisted pair for data and another twisted pair for power with individual screens for minimal interference. Low capacitance and efficient noise rejection maintain signal integrity especially over long runs. PE-insulated wires with 90 ohm impedance design, 24K gold plated/shielded connectors. High speed USB v2.0 certified. Bandwidth of 480 Mbits/s (60 MB/s) allows USB 2.0 devices to have smaller buffers even at high data rates. (Currently USB 3.0 is not used for USB Audio and hence this cable is more than sufficient for current needs).

Fitted with standard A to B connectors in all lengths shown

Fitted with standard A to **micro-USB B** OR **mini-USB B** connectors in 1m, 2m and 3m lengths ONLY – for use with some DAC's/portable products. Or fitted with standard MALE A to standard FEMALE A connectors in 1m and 2m lengths ONLY – these can be best thought of as “extenders”, which can increase the length of a previously purchased cable by a desired amount.

Length	0.7m	1m	2m	3m	4m	5m	6m	8m	10m	12m	15m
SRP	38.00	40.00	49.00	58.00	67.00	76.00	85.00	103.00	121.00	139.00	166.00

****NEW ** USB Excalibur Cables – High-End version of the Award winning Supra USB cable.**

Featuring: Transparent outer insulation surrounding dual screens for best RF pick-up protection. One twisted pair of **Silver-plated OFC conductors for data and TWO twisted pairs of Tin-plated OFC, for high power connection** and using individual screens for minimal interference. Cable just 7mm diameter. Low capacitance and efficient noise rejection maintain signal integrity especially over long runs PE-insulated wires with 90 ohm impedance design, 24K gold plated contacts with REMOVABLE metal-body and shielded connectors. High speed USB v2.0 certified. The bandwidth of 480 Mbits/s (60 MB/s) allows USB 2.0 devices to have smaller buffers even at high data rates. Fitted with standard A to B connectors only (at present)

Length		1m	2m	3m	4m	5m		
SRP		119.00	129.00	139.00	149.00	159.00		

NOTE: THESE PRICES CHANGED AS FROM 1ST SEPT 2022 – AS PREVIOUSLY ADVISED - THE PREVIOUS PRICES WERE FOR AN INTRODUCTORY PERIOD ONLY, UNTIL 31ST AUGUST 2022

CAT8 Network cables

This is an improved and more flexible version of Supra Cat7+Ethernet cable, fitted with high grade RJ45-8 8P/8C shielded connectors, plug compatible with existing RJ45 connectors. Capable of 40GBASE-T connectivity, the very wide bandwidth (2000 MHz) capability makes this cable highly suitable for wired home media systems, where high resolution audio and/or video is streamed from local or remote sources. This S/STP cable uses Flame Retardant Halogen Free “PE” outer insulation, making it compliant with building regs. CAT8 cables, longer than 20m are also available – please enquire.

Length	0.5m	1m	2m	3m	4m	5m	6m	8m	10m	12m	15m	20m
SRP	39.00	43.00	51.00	59.00	67.00	75.00	83.00	99.00	115.00	131.00	155.00	195.00

ZAC Fibre Optic cables

Zero Attenuation Concept fibre optic cables are available in a number of lengths, perfect for CD, DVD and LaserDisc players. ZAC are fitted with high quality metal body TosLink connectors. Hi-Fi Choice Bronze award winner.

ZAC prices for: TosLink to TosLink, mini-TosLink to TosLink, mini-TosLink to mini-TosLink

Length	15cm	30cm	1m	2m	4m	6m	8m	10m	15m	20m

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

Analogue Co-Ax Digital / Composite Video cables

Supra manufacture a range of single, dual, and multiple core analogue co-axial cables, suitable for a wide range of uses, carrying composite video, s-video, component video, RGB, as well as digital audio, TV, FM and data control lines. Connectors that can be fitted include phono, BNC, scart, DVI, TV co-ax.

AnCo is Supra's entry level co-ax cable, featuring a silver-plated OFC conductor core and can be supplied with phono, BNC, and TV/FM co-ax connectors. Prices shown below are for: phono to phono, TV co-ax (M-F) or TV co-ax (M-M)

Length	1m	2m	3m		per m
SRP	45.00	53.00	61.00		8.00

Trico is Supra's multi-shielded silver plated co-ax cable, suitable for high end installations, where quality counts. Trico can also be used as a digital audio cable. Trico is a What Hi-Fi 5* winner. Prices shown below are for: phono to phono, phono to BNC, phono to 3.5mm, phono to scart, BNC to BNC, BNC to phono. Other lengths to order.

Length	1m	2m	4m		per m
SRP	70.00	88.00	124.00		18.00

Please note that Supra continues to supply various other cables as follows:

- AV2 S-video cable (1m and 2m lengths)
- AV3 component video cable (1m up to 10m)
- AV6 6-way audio/video cable (1m up to 5m)
- FS fully wired scart cable (0.6m up to 4m)

As such, if you have a requirement for a specific length or termination of the above, then please enquire so that we can provide you with a quotation and lead time.

Analogue Audio cables

DUAL is an entry-level interconnect featuring a PE insulation and low capacitance, making it a good "all-rounder" to suit budget and mid-priced systems. **What Hi-Fi 5* winner.** Dual prices for 2 phono to 2 phono. Other lengths to order.

Length	0.5m	1m	2m	5m	
SRP	68.00	71.00	77.00	95.00	

DAC cable is a high quality OFC cable using PE foam insulation. DAC-X prices for 2 phono to 2 phono

Length	1m	2m		per m
SRP	102.00	120.00		18.00

PHONO cable is a high quality OFC cable for use between turntables and preamps/step up devices – a built-in ground lead helps prevent hum, where required. 2 phono to 2 phono, plus spade to spade (ground). Other lengths to order.

Length	1m	1.5m	2m		per m
SRP	106.00	114.00	122.00		16.00

EFF-I is our highly regarded silver-plated OFC cable available in four different terminated versions: EFF-IX, EFF-ISL, EFF-IRB and EFF-IXLR, depending on the type of connectors fitted. **EFF-IX** prices for 2 phono to 2 phono - **What Hi-Fi 5* winner**

Length	0.75m	1m	1.5m	2m		per m
SRP	112.00	121.00	139.00	157.00		36.00

EFF-ISL prices for 2 phono to 2 phono (locking types) - **Hi-Fi Choice "Best Buy"**

EFF-IXLR prices for 2 XLR to 2 XLR - Swift short body XLR plugs. Other lengths to order.

Length	0.75m	1m	1.5m	2m		per m
SRP	124.00	133.00	151.00	169.00		36.00

Supra Cables and Connectors

LORAD MK 11 MAINS CABLES

LoRad is a worldwide patented, CE-approved audio grade shielded mains cable, available “off the reel”, using multi-stranded tin-plated OFC conductors. The cable is shielded via a carbon/mylar screen, which is in “touching” contact with the drain wire. As such, the drain wire **MUST** be connected to the EARTH terminal at EACH END of the cable. Standard insulation colours are used: Brown (L), Blue (N) and Green/Yellow (E).

LoRad 1.5 is rated at up to 10 Amps, making it suitable for virtually all Home Consumer kit, excepting high output power amps or AV receivers. LoRad 2.5 is rated at up to 16 Amps and hence can be used both for big “monster” amplifiers, as well as for use with distribution blocks or as a dedicated spur from fuse box/distribution board to wall socket(s).

Please note: We DO NOT RECOMMEND that LoRad cable is laid inside walls or under floorboards, where it’s presence CANNOT easily be detected by conventional mains cable “finders” (unless perhaps photo evidence is provided to ensure that owners KNOW where the cable has been installed).

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

LoRad is a range of affordable, CE-approved shielded mains power cables available factory-terminated with various approved mains connectors, or available unterminated on reels, to enable either DIY assembly (with any connector the customer chooses), or for use in re-wiring electrical spurs from consumer units, to dedicated sockets for hi-fi and/or AV systems.

UK versions:

The LoRad terminated cables combine a factory-terminated LoRad Ice Blue cable, a 13A UK mains plug (featuring gold-plated pins) and the Supra SWF-10 IEC connector. LoRad 1.5 is rated at 10 Amps and LoRad 2.5 is rated at 16 Amps.

Please note: We can OPTIONALLY supply the following factory-terminated UK mains cables fitted with either a Bussman Gold-Plated or a HiFi Tuning mains fuse **inside** the Supra UK mains plug. For this service, please add the following amount per EACH cable. Please note that for the time being, such cables will need to be adapted on an "as needed" basis and hence this might slightly delay shipping your order (until we can gauge what demand there will be for this service and hence we can then start introducing these as "stock items" !!).

LoRad 1.5 Mk11 13A UK to SWF-10 IEC factory terminated cable prices

Wavelength Distribution

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

Supra LoRad Multi-way Mains Distribution Blocks feature an all-aluminium shielded chassis, upon the top of which are inset numerous mains sockets. We offer TWO standard versions: the first has NO FILTERING AT ALL and the second includes Non-Intrusive Filtering, which works in PARALLEL to the incoming mains supply and hence should have little if any effect on the sound quality. The /SP versions of the block features the Tommy Jenving designed 3-way “Surge Protection System” as well as Non-Intrusive Filtering, ensuring maximum reduction in spurious mains interference.

For the UK, Mains input is by way of a 3 pin High Current (16Amp) IEC chassis mount connector. NO INPUT CABLE is supplied with these items, leaving customers with a free choice as to the length of cable required to run from the wall socket to the mains block.

Please note: These blocks are manufactured “in house” in the Supra factory in Sweden. We can therefore entertain **special orders**, using alternative outlet sockets (such as EU, Australian, Belgian, Swiss, US) etc as well as specific internal wiring arrangements. Please contact us for details.

STANDARD EDITION

UK Mains Distribution Blocks - 4-way up to 11-way - UNFILTERED - supplied WITHOUT cables
(for use with “sensitive” amplifier products).

Product	MD04-BS-16 Mk 111	MD06-BS-16 Mk 111	MD07-BS-16 Mk 111	MD09-BS-16 Mk 111	MD11-BS-16 Mk 111

Note: Socket 1 on MD02, MD04 & MD06 and Sockets 1 and 2 on MD08 to MD10 are NOT Filtered but ARE Surge Protected.

SILVER EDITION UK MAINS DISTRIBUTION BLOCKS

We are STILL awaiting BS approval on the SILVER EDITION UK Mains Blocks – so this is on hold for now.

The main differences between these and the STANDARD edition are:

- 1) Internal wiring uses silver-plated copper conductors between inlet socket then looped to each outlet in turn.
- 2) Externally, the chassis is finished in BLACK, rather than the silver.
- 3) Pricing is yet to be confirmed, but there is likely to be an approx £50-£70 (@SRP, inc VAT) PREMIUM for the SILVER EDITION versions.

Wavelength Distribution

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

Flat 1.6 is a super flat speaker cable, only 1.95mm thick. Ideal for unobtrusive wiring on wall or under carpet. Can be taped to the wall with Supra's double-sided tape. The conductors consist of a compressed tin-plated OFC braid. The special production process makes the cable both super flat and highly flexible. The tin also contributes to a better sound quality by minimising the skin-effect and making fewer "current jumps" between the wire surfaces. One set of 10m Supra Cable Mounting Tape MT9 is included in cable carton, when a full reel is purchased.

Product	Flat 1.6mm	MT6 mounting tape	MT9 mounting tape
SRP (per m)	4.50	7.00	8.50
Notes	White only		

Classic cables are made from multi-stranded >5N purity Tin-plated Oxygen Free Copper. An ion-stable PVC outer jacket minimises corrosion whilst remaining extremely flexible. Ideal for longer runs as cable resistance is amongst the lowest in its class. The Classic 1.6HT, 2.5HT and 4.0HT versions use *Halogen Free insulation*, making it flame-proof and highly suitable for multi-room installation. **Please specify which COLOUR cables you require -either Ice Blue or White sheathing is now available.**

Product	1.6HT	2.5T	2.5HT	4.0T	4.0HT	6.0T
SRP (per m)	3.50	4.50	5.00	7.50	8.00	10.50
Notes	Ice Blue Halogen Free	Ice Blue or White	Ice Blue Halogen Free	Ice Blue or White	Ice Blue Halogen Free	Ice Blue

Rondo 2x2.5T is the single wired version of the popular Rondo 4x2.5, and is suitable for wiring budget or mid-range hi-fi and AV systems using high quality Tin-plated OFC conductors, in a single robust outer jacket.

Product	Rondo 2x2.5T
SRP (per m)	8.00
Notes	Ice Blue or Anthracite

Rondo 4x1.6/HT, 4x2.5T and Rondo 4x4T are for bi-wiring a wide range of low, medium or high power systems (based on cable thickness), and combine the strengths of Supra's Tin-plated OFC cables, in a single robust outer jacket.

Product	Rondo 4x1.6/HT	Rondo 4x2.5T	Rondo 4x4T
SRP (per m)	7.50	11.50	16.00
Notes	Ice Blue	Ice Blue or Anthracite What Hi-Fi "Best Buy" What Hi-Fi 5* winner	Ice Blue or Anthracite

Please note: All the above cables can be bought in shorter lengths "off the drum".

Linc Series is a shielded speaker cable, designed to minimise the effects of external interference on the sound quality, as well as preventing electro-magnetic radiation from the speaker cable affecting low level cables, close to the amplifier.

Product	Linc 2x2.5	Linc 2x4.0
SRP (per m)	8.00	10.00

UK Suggested Retail Price List - September 2022 (v1.1)

Supra Cables and Connectors

Ply Series is a low resistance, multi-stranded cable using a proprietary Tin-Plated Oxygen Free Copper mixture, of square section and low inductance. A shielded version of Ply 3.4 is now available, called the Ply 3.4/S. The new version uses three distinct Supra technologies tin-plating, RF shielding and low inductance. **Please specify which COLOUR cables you require -either Ice Blue or White sheathing is now available.**

Product	Ply 2.0	Ply 3.4	Ply 3.4/W	Ply 3.4/S
